

## At Shamrock, dog grooming and more from a pro

**D**og-owners now have a one-stop destination for complete customized grooming service, including a bath, blow-drying, nail-clipping and ear-cleaning. Shamrock also offers hair-trimming and, if needed, anal glands secretion. Limited pickup and drop-off service is available.

Shamrock also sells leashes, brushes, collars, combs, tick keys, holistic treats and biscuits, with more products coming soon. The business, which opened Sept. 1, also provides the county's only dog-waste removal service, with cleanups available

one-time, weekly or monthly.

Co-owner Paula Phillips has 28 years of experience in the art of dog-grooming, having relocated her business from Morris County, New Jersey. She is a registered judge at AKC and UKC dog shows, a professional dog handler and conformation show-handling instructor. She offers hand-stripping of terriers and all phases of grooming for pets, dog-show contestants, seeing-eye dogs, police dogs and all other service dogs.

Shamrock aims to provide a pleasurable

grooming experience for your dog, to sell products that we know about through personal experience. Our motto is courtesy, reliability and trustworthiness. Dogs are groomed one-on-one with care and concern based on vast knowledge of the dog world gained over nearly three decades.
